

In the Claims

The Examiner is requested to please Cancel claim 20 without prejudice to the filing of future continuing applications.

**REMARKS**

The specification is amended above to insert a reference to related cases.

Obvious typographical errors have been corrected. Support for the amendments are found in the chemical structures depicted in the specification to which the naming convention is applied.

Claim 20 from the International patent application has been canceled.

No amendment of inventorship is necessitated by these amendments.

Early allowance of the claims is requested. Should the Examiner believe that a conference with applicants' attorney would advance prosecution of this application, he is respectfully invited to call applicants' attorney.

Respectfully submitted,

Dated: November 28, 2005
